**EXHIBITION PRINTS** include a scan, imaging work in Photoshop (a Custom File) and a final canvas wrap in the size you order. All services also include a copy of your final file on DVD, for your archive.

**Our default is to provide the following:**

**35mm film:** 200MB 16-bit scans; a 200MB 16-bit Custom File; and a final canvas wrap.

**Larger format films:** 600MB 16-bit scan; a 600MB 16-bit Custom File; and a final canvas wrap.

**Digital Camera Files:** A Custom File made from your JPEG, TIFF or RAW file; and a final canvas wrap.

If you prefer scans or Custom Files in different sizes than those listed above, or different borders, let us know. We are happy to accommodate your needs, and we will let you know if your requests will require an additional fee.

	IMAGE DESCRIPTION	SCANS- If you would like us to scan your image to a different size than our default, specify it here.	CUSTOM FILES - Please provide information for each image you would like us to correct. If you would like specific corrections, please include a note on a separate page.			PROOFS Want a proof?	Please turn the page to provide specific information about your final canvas wrap.
			Megapixel or Scan Size (leave blank if you are ordering our default)	JPEG, TIF or RAW (digital camera files only)	16-bit or 8-bit

**FILE DELIVERY:** We provide your custom files on DVD. Would you like us to burn the files now, and ship them with your prints? Or, should we wait to burn the files to DVD until you receive your prints. This will allow you to order file changes before we burn the final files to DVD?  Send Files Now  Wait

Scanning Negatives? We have three different software packages that we can use to scan color and B&W negs. We usually produce the best results with negatives using LinoColor software, which is 8-bit only. By default, we will scan negatives with the software that we think makes the best looking scan, regardless of bit depth. This said, if you would rather have 16-bit scans, please initial here: \_\_\_\_\_

### Special Notes and Instructions:

Write them here, or include a separate page.

#### EDGE TYPES:

**Mirrored** - Your photograph is mirrored (bookended) onto the edges of the wrap to create the illusion of a continuous image. This is the most popular option because it does not crop your photograph.

**Wrap Around** - We take your existing image and wrap it around the edges. This results in cropping of your photograph, so subjects need to be well centered.

**Colored** - We can take any color in your photograph, or a neutral color (black, grey, white) and use that color on the edge of your canvas wrap.

**Wrap for framing** - Canvases that will be framed do not show the vertical edges of the wrap, as the edges will be masked off by a frame or linen liner. We wrap just a small amount of the image over the edges, leaving the rest of the the edges white.

**Image Agreement:** This agreement governs the submission of photographic images and other materials by ("Client") to West Coast Imaging. "West Coast Imaging" as used in this agreement refers to West Coast Imaging as well as its related corporate entities, affiliates, officers, employees and representatives, including, but not limited to Selling Imaging, Inc.

Grant of License - By submitting photographic images and other materials to West Coast Imaging, Client grants West Coast Imaging a license to reproduce and perform all other activities necessary to properly process and complete their obligations related to the materials, and waives any claims against and covenants not to sue West Coast Imaging for infringement or violation of Client's copyright, trademark, trade dress, privacy or intellectual or other property interests or right in such materials.

Clearance of Interests - By submitting photographic images or materials to West Coast Imaging, Client represents and warrants that such materials do not infringe upon or violate any copyright, trademark, trade dress, privacy or intellectual or other property interests or right of any third party and that Client has secured all necessary licenses, releases, consents and permissions for all materials prior to submission. In the event of a claim by a third party against West Coast Imaging arising out of any intellectual or other property interests or right in the submitted materials, the parties agree that Client will hold harmless and indemnify West Coast Imaging against all such claims.

Limitation of Liability - While West Coast Imaging makes every effort to ensure that photographic images and other materials received are handled with care, materials submitted to West Coast Imaging could become damaged during handling and processing. By submitting images to West Coast Imaging, Client assumes this risk and agrees that the liability of West Coast Imaging for any damage to submitted materials is limited solely to replacement of such materials with, or the replacement value of, a similar amount of raw materials of like kind, and waives any and all other potential claims and damages against same.

\* West Coast Imaging requires payment information at the time of ordering. We generally bill your card when we ship your order. We accept checks, Visa, MasterCard, American Express, Discover and Paypal. Shipping charges and sales tax (CA Residents) are additional and will be added to your total order. By signing this form, you give West Coast Imaging permission to charge your credit card, and you accept our Image Agreement, on attached page. Unsigned orders ARE SUBJECT TO DELAY.
